

A leader in providing wireless infrastructure and specialty communication systems.

WPCS

Hartford Operations

WPCS is a recognized leader in Wireless System Technology for the Public and Private Sectors throughout New England. With our highly trained staff of system design, service and installation professionals, our customers can expect solutions that exceed expectations.

The WPCS Difference

- Consultative Team Approach for Sales, Service and Engineering
- Complete Turnkey Solutions
- End-to-End Wireless Integration
- On-going Technical Support and Services
- Single Source for your Communication Needs

Voice and Data Services

Experience with voice and data products from Motorola, Airlink and MESH and broadband technologies, WPCS is ready to support the wireless solutions customers need. Because we are vendor neutral; yet having distribution agreements with the key technology manufacturers, we develop the solution that is right for you. As the leading communications systems provider in the public safety, educational and commercial industry, we have successfully designed and deployed complex solutions throughout New England. Our unparalleled experience and leadership is the WPCS difference.

WPCS Wireless Infrastructure Group Services

WPCS Wireless System Integration specializes in the integration of various technologies into a single, seamless solution. The WPCS team has extensive experience in working with major manufacturers and is trained and certified in many advanced technologies. Wireless data and video networks, advanced digital and analog systems are areas of expertise at WPCS. Our team of experts has extensive experiences in Public and Private Systems Networks to create in-building designs for improved wireless communications system coverage within their facilities. With

our ability to interface with our other subsidiaries nationwide, no project is too large; no opportunity is too small.

Installation Services

WPCS has developed a well established reputation of Customer Satisfaction with our Installation Services of Voice and Data Wireless Communications Systems. Whether a standard system or the most complex, WPCS takes pride in providing our customers the very best-in-class installation services backed up by certified installers that are trained in fixed systems, mobile systems and wireless networks.

Maintenance Programs

As a Motorola Premier Service Partner and Certified Service Center, WPCS provides our customers with an array of maintenance plans from standard to customized offerings that suit their specific needs. Our technicians are ETA and FCC certified and trained in specific product applications to ensure our customers that every product they purchase from WPCS is covered by an appropriate plan. Maintenance programs range from 8 am to 5 pm, Monday through Friday, to emergency response 24/7. Our commitment to our customer's satisfaction is evidenced by the level of service programs we have to offer and high caliber test equipment that we invest in.

Competencies in Wireless Communications

Technical Services

- Bench Repair Services
- Portable
- Mobile

Fixed Equipment

- Maintenance Contracts
- Fixed Rate Repair

Equipment Installation

- Motorola R56 Standards
- In-shop or Field

Field Technical Repairs

- Extensive Parts Inventory
- Emergency Services 24/7

Radio Frequency Engineering Services

- Coverage Enhancements
- Interference Remediation

Project Management

- Large System Implementation Expertise

Propagation Studies

- Coverage Analysis Tools

Technical CAD Documentations

- System Documentation

Equipment Rentals

- Short/Long Term
- Special Events

System Design and Sales

- Radio System Design
- System Engineering
- Budgetary Design
- Customized Solutions

Dispatch Center Design

- Application Engineering
- Console Furniture

In-building Coverage Enhancements

- Radio Systems
- Cellular
- Public Safety

Grant Funding Services

- Consulting and Application

System Engineering

- Radio Frequency Design
- Network Engineering
- Data Networks

Subscriber Equipment Sales

- Radios
- Fixed Equipment

Representing Leading Manufacturers

- Motorola Factory Representatives
- Alcatel Lucent
- Air Link
- Vertex Standard
- GEMDS
- Firetide
- Zetron
- Panasonic

Spectrum Acquisition and Licensing

- Acquire and Licensing of Spectrum
- FCC Processing

Broadband Systems

- Wireless Video Networks
- Data Networks
- Motorola Canopy and Orthogon
- Mesh Networks
- Microwave Networks
